

Penthrox™ – a revolutionary product for the provision of immediate pain relief.

Penthrox™ is a safe, convenient and effective means of providing pain relief to patients. With 30 years of use within Australia, **Penthrox™** is commonly referred to as the “first line” in pain management.

Penthrox™ is a non-narcotic inhalational analgesic with rapid onset that is simple and easy to administer.

Penthrox™ is ideal for:

- Emergency room
- Changes of dressings
- Short surgical procedures
- Manipulation of minor dislocations and fractures
- Transport of patients with severe pain between departments
- Radiological procedures
- Radiotherapy procedures
- Breakthrough pain
- Post-operative physiotherapy
- Biopsy procedures
- Ulcer debridement
- Drainage of abscesses
- Removal of surgical packs

PENTHROX™

- the leader in immediate pain relief
